Background

College and university students are our nation's future. They are key influences in building a better society and country. As we realize the rapid growth in technology developments and more elaborated learning methods, more so than ever, our young people truly need to be well-equipped and well-balanced with the good quality of the mind.

World Peace Ethics Club, Thailand, have a goal to promote young people both in Thailand and abroad to learn basic moral principles that are universal and accessible to people of any race and religion. Students can learn the knowledge in their daily lives. This will enable them to have good minds and success in their lives with inner peace and can spread this happiness to families, societies and countries. Finally, it can create love, harmony and true peace.

For this reason, the committees of World Peace Ethics Club initiated the First Annual World Peace Ethics Contest (World-PEC) for Young People in Thailand in 2008. The participating students learned moral principles through reading the book entitled, 'Family Day by Day' (English book for English language and Chinese book for Chinese language) this can help them to live proper lives based on the firm foundations of moral integrity.
